TRADEMARKS ACT 2019

[Sections 18(b), Regulation 12]

PUBLICATION OF TRADEMARK IN GAZETTE

PTG No: 04NRUT05/2022

In accordance with the *Trademarks Act 2019*, this trademark was entered on the Register of Trademarks on 16th day of August 2022 with a deemed registration date of 2nd May 2022 at 15:10pm. The details of registration are:

Combination of trademark:

Representation of the trademark is in black and white.

Owner: INTEL CORPORATION
2200 Mission College Boulevard
Santa Clara
California 95052-8119
United States of America

In respect of the goods or services that follow.

Class 42

Providing temporary use of on-line non-downloadable software for machine learning, data mining, data query, and data analysis; providing temporary use of on-line non-downloadable software for cognitive computing, deep learning, artificial intelligence; providing temporary use of non-downloadable software for data query and data analysis; providing temporary use of non-downloadable software for data mining; providing temporary use of non-downloadable software for cognitive computing, deep learning, artificial intelligence; searching and retrieving information on computer networks for others; computer services, namely, providing temporary use of online non-downloadable software, software application programming interface (API), and software widget for machine learning, data mining, data query, and data analysis; providing online non-downloadable computer vision software for acquiring, processing, analyzing and understanding digital images and extracting visual data; providing online non-downloadable computer software development kits; providing online non-downloadable computer software development kits for computer vision, machine learning, deep learning, artificial intelligence, natural language processing, learning algorithms, and data analysis; providing online

G.N.No. 788/2022 (Cont'd)

non-downloadable vision software that uses artificial intelligence to see and interpret data, connect with hardware and store, manage and process data in the cloud; software as a service (SAAS) services featuring software for use in providing cloud-computing capabilities and information technology (IT) services, computing, and cloud computing; software as a service (SAAS) services featuring software for use in computing via a global and local network; software as a services (SAAS) services feature software development platform for use in connecting applications to enterprise systems and devices; software consulting and providing information on software as service; software as a service (SAAS) services featuring software for use in providing low-latency and high bandwidth computing; computer software services for providing computing capabilities for application developers and content providers; cloud computing featuring software for use in providing low-latency and high bandwidth computing, information technology (IT) services, and computing via a global and local network; computer software services for providing cloud computing capabilities for application developers and content providers; services for enabling applications to be deployed across an online network; services for providing analytics, caching, computation and traffic routing; services for providing a secure and trusted computing network; providing computer hardware and software consulting services in the field developing a cloud based environment with integration of applications across various platforms and connected devices; computer services, namely, creating computer network-based indexes of information, websites, and resources; providing temporary use of non-downloadable computer software for connecting, operating, and managing networked devices in the internet of things (IoT); providing online non-downloadable computer software for connecting, operating, and managing networked devices in the internet of things (IoT); software as a service (SAAS); consulting services in the field of computers and wireless computing; computer network management services, namely, monitoring of network systems for technical purposes; hosting of digital content on the internet; computer network monitoring services, namely, providing information on the operation of computer networks; customization of web software, and computer user interface design for others; Development, design, and consulting services for computers; designing and developing standards for others in the design and implementation of computer software, computer hardware and telecommunications equipment; providing customers and technicians with information relating to computer project management; providing online software as a service for the collection, compilation, processing, transmission and dissemination of Global Positioning System (GPS) data; providing online non-downloadable software featuring roadway, geographic, map, public transit lines information, public transit line information, public transit route information, public transit timetables and schedules and other public transit information; providing online non-downloadable navigation software for calculating and displaying routes and sharing public transit navigation system, map and travel information; Providing online non-downloadable computer software to enable the sharing of public transit information, mapping, navigation, traffic, routes and point-of-interest information; interactive social computer software that enables the exchange of information among users; providing online software as a service for automatic vehicle driving control, autonomous control, navigation, assisted driving of vehicles, and self-driving of vehicles.

Dated this 16th day of August 2022.
