G.N.No. 799/2022

TRADEMARKS ACT 2019

[Sections 18(b), Regulation 12]

PUBLICATION OF TRADEMARK IN GAZETTE

PTG No: 03NRUT05/2022

In accordance with the *Trademarks Act 2019*, this trademark was entered on the Register of Trademarks on 16th day of August 2022 with a deemed registration date of 2nd May 2022 at 15:10pm. The details of registration are:

Combination of trademark:

Representation of the trademark is in black and white.

Owner: INTEL CORPORATION
2200 Mission College Boulevard
Santa Clara
California 95052-8119
United States of America

In respect of the goods or services that follow.

Class 09

Computers; handheld computers; memory boards; computer hardware; integrated circuits; integrated circuit memories; integrated circuit chips; chip-sets; semiconductor processors; semiconductor processor chips; semiconductor chips; microprocessors; printed circuit boards; electronic circuit boards; computer motherboards; computer memories; computer operating systems; micro-controllers; data processors; central processing units; semiconductor memory devices; software programmable microprocessors; digital and optical microprocessors; digital and optical data and signal processors; video circuit boards; audio circuit boards; audio-video circuit boards; video graphic accelerators; multimedia accelerators; video processors; video processor circuit boards; processor die packaging and casings; cards, discs, tapes, wires, records, microchips and electronic circuits, all for the recordal and transmission of data; modems; apparatus and instruments, all for processing, storage, retrieval, transmission, display, input, output, compressing, decompressing, modifying, broadcasting and printout of data; computer input and output devices; work stations; data memories; storage devices; security systems for computer hardware and software; set electronic chips; components for computers

G.N.No. 799/2022 (Cont'd)

and printed circuits; voice accelerators; voice, data, image and video accelerators; memory systems for computers; cables and adapters; computer terminals and printers for use therewith; video display units; telecommunications apparatus and instruments; cameras; computer hardware for computing; computer hardware for computing via a global and local network; computer hardware for cloud-computing; computer hardware for low-latency and high bandwidth computing; computer hardware for use in providing a secure computing environment; computer networking hardware; computer communication servers; computer hardware for use in providing a secure cloud computing network; computer software for computing; computer software for cloud computing; computer software for computing via a global and local network; computer software for low-latency and high bandwidth computing; computer memory hardware; computer software for providing a secure computing network; computer software for use in providing a secure cloud computing network; computer operating system software; computer system extensions, tools and utilities in the field of application software for connecting personal computers, networks, telecommunications apparatus and global computer network applications; computer hardware and software for enhancing and providing real-time transfer, transmission, reception, processing and digitizing of data; computer network adapters; computer network controllers; computer network interface devices; computer network hubs, switches, and routers; microcontrollers for internet of things (IoT) enabled devices; downloadable computer software for connecting, operating, and managing internet of things (IoT) enabled devices; downloadable computer software for connecting, operating, and managing mobile internet of things (IoT) enabled mobile devices; computer hardware and software for the development, maintenance, and use of local and wide area computer networks; computer hardware and software for the development, maintenance, and use of interactive audio-video computer conference systems; computer hardware and software for the receipt, display, and use of broadcast video, audio, and digital data signals; electronic control devices for the interface and control of computers and global computer and telecommunications networks with television and cable broadcasts and equipment; routers; hubs; servers; switches; apparatus for testing and programming integrated circuits; peripheral memory apparatus and devices; semiconductor devices; computer hardware and software for creating, facilitating, and managing remote access to and communication with local area networks (lans), virtual private networks (vpn), wide area networks (wans) and global computer networks; router, switch, hub and server operating software; computer software tools for the facilitation of third party software applications; computer hardware and software for wireless network communications; downloadable electronic publications in the area of electronics, semiconductors and integrated electronic apparatus and devices, computers, telecommunications, entertainment, telephony, and wired and wireless telecommunications; computer hardware for use in machine vision, machine learning, deep learning, artificial intelligence, natural language processing, learning algorithms and data analysis; Computer software for machine learning, data query, and data analysis; computer software for cognitive computing, deep learning, artificial intelligence; computer software platform for cognitive computing; computer software for graphical representation of data; pattern recognition computer software; computer software for data mining; computer vision software for acquiring, processing, analyzing and understanding digital images and extracting visual data; computer software development kits; computer software development kits for computer vision, machine learning, deep learning, artificial intelligence, natural language processing, learning algorithms, and data analysis; downloadable and recorded vision software that uses artificial intelligence to see and interpret data, connect with hardware and store, manage and process data in the cloud; computer hardware and software for recording, processing, receiving, reproducing, transmitting, modifying, compressing, decompressing, broadcasting, merging and enhancing sound, images, graphics, and data; algorithm software programs for the operation and control of computers; computer hardware and software for enhancing and providing real-time transfer, transmission, reception, processing and digitizing of audio and

G.N.No. 799/2022 (Cont'd)

video graphics information; downloadable and recorded computer software for the collection, compilation, processing, transmission and dissemination of Global Positioning System (GPS) data for use in fixed, mobile and handheld devices; electronic database featuring roadway, geographic, map, public transit lines information, public transit line information, public transit route information, public transit timetables and schedules and other public transit information recorded on computer media; navigation software for calculating and displaying routes; public transit navigation system featuring interactive digital map displays, interactive instructions and user generated information; interactive social computer software for the retrieval and display of public transit, navigation, geographic, map and travel information; interactive social computer software to enable the transmission of public transit information, mapping, navigation, traffic, routes and point-of-interest information to telecommunication networks, cellular phones, navigation devices and other mobile and hand-held devices; interactive social computer software that enables the exchange of information among users; computers and computer operated systems for autonomous driving, driver-assisted, connected vehicles, unmanned aerial devices, and drones; computer hardware and software platforms featuring interactive displays, control systems, and control devices, warning systems, connectivity, onboard computers, and GPS for vehicles, connected vehicles, autonomous, and driverless vehicles; multi camera systems for use in vehicles; GPS navigation and guidance, GPS location tracking, GPS map-displaying and route-calculating device, video-recording, and wireless communication network devices for data or image transmission for vehicles; computer software applications for digital virtual agents, predictive systems, machine learning, cognitive process automation, pattern recognition, character recognition, visual computing applications, knowledge virtualisation, robotics, drones, and unmanned vehicles; computer software and hardware applications for automatic vehicle driving control; computer software and hardware applications for automatic vehicle driving control, autonomous control, navigation, assisted driving of vehicles, and self-driving of vehicles; Vehicle tracking devices comprised of computer software and computer hardware, sensors, transmitters, receivers and global positioning satellite receivers, all for use in connection with vehicle tracking and vehicle monitoring.

Dated this 16th day of August, 2022.
