>15 kl (per kl)	1.55	0.45

Notes:—

- (1) Residential Tariff Classes 3.1 and 3.2 (ie where the water is solely for domestic use) apply to residential users in single-metered properties only.
- (2) The Residential Tariff is distinguished between High Covenant and Low Covenant Residential properties and does not apply to residential use by government owned properties or corporate customers.
- (3) The distinction between tariff classification among residential users (Low Covenant Residential, High Covenant Residential owner occupied, High Covenant Residential non-owner occupied) is based on both Unimproved Land Value (High Covenant Residential tariff applies to properties with ULV > K12,000; Low Covenant Residential tariff applies to properties with ULV ≤ K12,000) as well as whether the occupant is the registered property owner (only private individuals are eligible for Residential tariff).
- (4) Low Covenant Residential usage is charged on one tariff, Class 3.3 Low Covenant Residential Tariff, irrespective of whether it is owner-occupied or tenanted.
- (5) All Low Covenant Residential Users facing financial difficulties in settlement of water and sewerage bills, will, upon their written application to Eda Ranu, be automatically granted a rebate of K0.35 per kilolitre against the water lifeline tariff and a rebate of K0.15 per kilolitre against the sewerage lifeline tariff. These rebates are limited to the lifeline band of the 1st 15 kilolitres of monthly volumes for both water and sewerage charges.
- (6) Corporated owners or corporate tenants and all non-individuals continue to be charged on Class 2 Commercial/Industrial/Non-Domestic/High Users Tariff, irrespective of the type of usage.
- (7) All properties with more than one meter installed within the property will continue to be charged on Class 2 Commercial/Industrial/Non-Domestic/High Users Tariff. This includes existing High Covenant properties (whether fully or partially tenanted), multiple residential buildings, such as flats and duplexes and any property with more than one meter installed in the property.
- (8) Government owned properties continue to be charged on Class 1 Government Tariff, irrespective of type of usage (with the exception of Approved Schools).
- (9) Where the registered property owner is responsible for the account, conditions of the supply contact and recourse by Eda Ranu (in the event of non-payment by the customers) are set out in the Eda Ranu legislation (NCD *Water Supply and Sewerage Act*, 1996)
- (10) Where the registered owner is not responsible for the account, a supply contract is drawn up between the user and Eda Ranu. One of the provisions of such a contract is the requirement for a security bond to be deposited by the customer with Eda Ranu.
- (11) All users with monthly consumption of more than 150 kilolitres will be charged on one standard tariff (Class 2 Commercial/Industrial/Non-Domestic/High User Tariff) for the whole volume, irrespective of property or usage classification of the customers.
- (12) Approved Schools will be charged Class 4 Tariff for all authorized consumption volume. The authorized volume will be based on parameters established for each Approved School based on the enrolment of the school and an agreed per capita consumption volume.

Notice Relating to Eda Ranu's 2008 Water and Sewerage Tariffs:—continued

- (13) The rates are excluding GST/VAT.
- (14) Charges have been set on a per connection basis.
- (15) The customer is responsible for the cost of connection to the building from the connection provided by Eda Ranu.
- (16) For temporary connections, the water charge will be Class 2 Commercial/Industrial/Non-Domestic/High Users Tariff.
- (17) All bills for water and sewerage rates are to be paid within 14 days of billing. Failure to pay accounts within the stipulated period may lead to service being disconnected and debt recovery action being taken.

Non-Regulated Services

Public/Community Bulk Meters	Water (Kina)	Metered Stand - Pipes	Monthly Charges
All registered volume (per kl)	1.00	Up to 15 kl	K7.50
Eda Ranu filling station Coupon sale (per kl) 4.00	4.00	Up to 50 kl	K25.00
		Up to 75 kl	K40.00

There will be a stand-pipe charge for purely domestic usage. This classification applies to properties where the meter is connected to a stand-pipe tap.

- (a) This classification is intended to assist property owners or tenants currently incurring high bills but who may not be in a position to finance massive repairs to a badly leaking internal plumbing system.
- (b) A monthly fixed charge is imposed for stand-pipe connections. The monthly fixed charge for such a connection is equivalent to an assumed monthly consumption for domestic use.
- (c) Conditions will be imposed for stand-pipe connections. The customer will undertake not to connect the stand-pipe to internal plumbing within the property.
- (d) A range of volume will be allowed for a monthly fixed charge payment and a meter will still be installed to check that the customer's consumption is within the approved range.
- (e) Full Residential Tariff will be charged for properties with stand-pipe connections where the usage consistently exceeds the approved range by more than 10%.

Dated this 4th day of February, 2008.

T. ABE,
Commissioner.
